••••• Measuring to the Half, Quarter, Eighth, and Sixteenth of an Inch

Directions: Use a ruler and the information on page 5 to measure each of the items illustrated here to the nearest sixteenth of an inch.

1. the length of this pen _____

2. the length of this eraser _____

3. the length of these scissors _____

4. the length of this pencil _____

Directions: Use a ruler and the information on page 5 to measure each of the objects listed below to the nearest sixteenth of an inch.

- | | |
|--|--|
| 5. the length of a calculator _____ inches | 12. the length of your hair _____ inches |
| 6. the length of a crayon _____ inches | 13. the length of a compass _____ inches |
| 7. the length of a pencil _____ inches | 14. the length of a dollar bill _____ inches |
| 8. the height of a bottle _____ inches | 15. the width of a math book _____ inches |
| 9. the length of your thumb _____ inches | 16. the length of a paper _____ inches |
| 10. the length of your pinky _____ inches | 17. the height of a cup _____ inches |
| 11. the width of a watch face _____ inches | 18. the length of a leaf _____ inches |

..... Computing Perimeters of Irregular Polygons and Circumferences of Circles

To compute the perimeter of an irregular polygon, add the lengths of the sides.

$$P = 4.7 \text{ m} + 3.5 \text{ m} + 6.3 \text{ m} + 2.8 \text{ m} = 17.3 \text{ m}$$

Directions: Use the information on pages 5 and 9 to help you compute the perimeters of these polygons. Remember to label the unit of measurement—inches, feet, yards, centimeters, meters—in your answer.

1. $P = \underline{\hspace{2cm}}$

2. $P = \underline{\hspace{2cm}}$

3. $P = \underline{\hspace{2cm}}$

4. $P = \underline{\hspace{2cm}}$

Directions: Use the information on page 9 to help you compute the circumferences of these circles. ($C = 2\pi r$ or $C = \pi d$)

5.

$r = 4 \text{ m}$

$C = \underline{\hspace{2cm}}$

6.

$r = 6 \text{ in.}$

$C = \underline{\hspace{2cm}}$

7.

$d = 10 \text{ cm}$

$C = \underline{\hspace{2cm}}$

8.

$d = 7 \text{ m}$

$C = \underline{\hspace{2cm}}$
