Introduction 3

Life Science

Making Sense of It All (*Identify the five senses and how they help us learn*) 4

Schoolyard Sort: Living or Nonliving? (*Differentiate between living and nonliving things*) 17

Plant Puzzler (*Identify the parts of a plant and their functions*) 27

Where's My Home? (*Classify plants and animals in different environments or habitats*) 35

Characteristic Classification (*Classify animals according to characteristics*) 63

Cycle of Life (*Identify the sequence of events of the life cycle of a plant, frog, or butterfly*) 75

A Body of Vocabulary (*Understand the basic functions of the different parts of the body*) 85

Earth Science

Let the Rain Flow (*Using a flow chart, identify that rain forms from water drops in clouds*) 91

A Sequence of Seasons (*Recognize the sequence of seasons and what activities happen in each season*) 97

Fascinating Fossils (*Understand how fossils are made and how scientists collect fossils*) 109

Data to Dinosaur (*Identify different kinds of dinosaurs and what facts scientists have learned about them*) 115

Wonderfully Natural (*Identify natural resources that people use*) 143

Physical Science

Categories of Matter (*Identify objects as solid, liquid, or gas*) 153

A Magnificent Magnet (*Sort objects according to whether or not they are attracted by a magnet*) 159

Sink or Float Vote (*Understand that some objects sink and others may float in water*) 165

Gas

Liquid

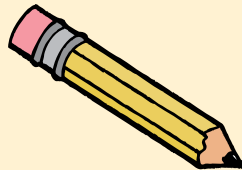

Solid
