Gone Fishing (cont.)

Part IV

Daily Catch

1. Which two families caught more fish on day 2? _____
2. Between the two days, which family caught the most fish? _____
3. The Perez family has three members. The Gruber family has five members. Which family caught more fish per person on day 2? _____
4. People who rent boats to go fishing are aware of a number of dangers. Mike and Harold polled 40 customers to see what dangers they faced most often. Create a circle graph that represents the results of the poll.

Dangers

Rocky Water: 20 people

Shallow Water: 10 People

Snakes: 5 people

Fallen Trees: 5 people

What steps did you follow when completing the circle graph?
